

IN THE CLAIMS:

Δ1 *cap* 1. (Twice Amended) A kit, comprising:

a pair of cover panels for attachment to opposite side panels of a computer case, each of said cover panels having a plurality of holes and each of the opposite side panels of the computer case having a corresponding plurality of holes; and

a plurality of elastomeric feet each insertable through one of said holes in said cover panel and through the corresponding hole in the side panels of the computer case for retaining each of said pair of cover panels solely on the opposite side panels of the computer case.

Δ2 *W/ft* 8. (Twice Amended) A method, not requiring technical skill, of installing a color panel solely on a side panel of a computer case, the color panel having a plurality of holes, the computer case having at least one side panel, the at least one side panel having a plurality of holes corresponding in location to the plurality of holes in the color panel, comprising:

inserting a plurality of elastomeric feet each through one of the holes in the color panel and through the corresponding hole in the at least one side panel to secure the color panel solely on a side panel of the computer case.

Δ3 *5/4/4* 11. (Twice Amended) A computer case, comprising:

opposite side panels each having a plurality of holes;

a pair of cover panels for attachment solely to said opposite side panels, each of said cover panels having a corresponding plurality of holes;

a plurality of elastomeric feet each insertable through one of said holes in said cover panel and through the corresponding hole in the side panels of the computer case for retaining each of said pair of cover panels solely on the opposite side panels of the computer case.

Please add the following new claims 19 to 25.

19. (New) A computer case, comprising:
a side panel having a plurality of holes;
a cover panel for attachment to said side panel, said cover panel having a corresponding plurality of holes;
a plurality of elastomeric feet each insertable through one of said holes in said cover panel and through the corresponding hole in the side panel of the computer case for retaining said cover panel on the side panel of the computer case such that the side panel remains visible around the majority of the periphery of the cover panel.

20. (New) The computer case of claim 19, wherein said cover panel is made of a plastic material.

21. (New) The computer case of claim 19, wherein the holes of the side panel is covered with hole plugs.

22. (New) The computer case of claim 19, wherein the cover panel has an interior surface corresponding in shape to an exterior surface of said side panel.

23. (New) The computer case of claim 19, wherein the cover panel has a vent section corresponding in location to a vent in the side panel.

24. (New) The computer case of claim 19, wherein each of said feet has a cover portion and a pair of legs extending from said cover portion and a shoulder portion at a distal end of said legs such that when said legs are inserted into said plurality of cover panel holes and said plurality of side panel holes, said legs flex inwardly and said shoulder portions are brought into engagement with an interior surface of the side panel.

25. (New) The computer case of claim 19, wherein the side panel is painted.
